PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building responsive, scalable web applications using React.js, Node.js, Express.js, and MongoDB/MySQL. Skilled in developing reusable React components, integrating REST APIs, implementing role-based access control, and delivering end-to-end features across frontend, backend, and database layers. Experienced in leveraging AI-assisted coding workflows and prompt engineering to accelerate development and improve code quality. Seeking a Software Developer role to build high-performance, user-focused web applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frontend: React.js, Redux, Hooks, Responsive UI Design, Bootstrap

Backend & APIs: Node.js, Express.js, REST APIs, JSON, JWT Authentication

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Linux, Browser DevTools. Hooks, Next.js

Other: AI-Assisted Coding Workflows, AI-Generated Code Review & Validation, Prompt Engineering, OOP

PROFESSIONAL EXPERIENCE

Software Developer — Diginet Solution

Aug 2024 – Present

- Developed and integrated RESTful APIs using Node.js and Express.js to support frontend application features.
- Collaborated with designers and backend developers to understand requirements and deliver user-focused features.
- Optimized MySQL queries and application workflows to improve data handling and performance.
- Used Git-based development practices while collaborating with the development team.

Software Developer — Freelance / Self-Employed

Feb 2024 – Aug 2024

- Contributed to frontend development and API integration for responsive web applications.
- Worked on end-to-end application development, including frontend integration, backend logic, and database connectivity.

PROJECTS

SpotServe — Service & Vehicle Management Platform

React.js, Node.js, Express.js, MySQL

- Developed a responsive React.js frontend with reusable components and role-based dashboards for customers, service managers, and administrators.
- Integrated REST APIs with React to manage users, vehicles, service requests, and job workflows, streamlining end-to-end service operations.
- Implemented secure login, registration, authentication, and role-based UI access control for multiple user types.

Salado — Café Ordering & Management Platform

React.js, Node.js, Bootstrap, JavaScript

- Built a full-stack ordering and management platform enabling customers to browse menus, place orders, and schedule deliveries with ease.
- Developed backend logic to manage menus, orders, deliveries, and payments, ensuring smooth workflows and enhanced customer satisfaction.
- Designed and implemented reusable React.js UI components to simplify café operations for staff and customers alike.

Quiz App — Interactive Quiz/Assessment Application

React.js, JavaScript, Bootstrap, Node.js, MongoDB

- Developed an interactive quiz application using React.js, featuring timed questions, score tracking, and category-based selection.
- Built reusable, state-driven React components to manage question flow, scoring logic, and result summaries.

EDUCATION

Master of Computer Applications (MCA) — D.Y. Patil Institute of MCA and Management, Akurdi, Pune

2022 – 2024

CGPA: 7.4 / 10

Bachelor of Computer Applications (BCA) — S.N. Arts, D.J.M. Commerce & B.N.S. Science College, Sangamner, Maharashtra

CGPA: 9.2 / 10

2018 - 2021

CERTIFICATIONS

- MERN Stack Development — Speedup Infotech
- Python for Data Science, AI and Development — Coursera
- Prompt Engineering for ChatGPT — Coursera
- UI/UX Design — Naresh IT
